ADMINISTRATIVE - INTERNAL USE ONLY

14 December 1983

MEMORANDUM FOR: Director of Data Processing

ATTENTION: Executive Officer, ODP

FROM:

Chief, Management Staff

SUBJECT: Weekly Report for Week Ending 16 December 1983

AIM CODEWORD FACILITY

Members of the Systems Programming Division (SPD) briefed the Chief, Special Security Center, OS, on the protection of documents provided by the AIM system and, in particular, the codeword facility within that system. Discussions centered around the certification of SCI access approvals held by AIM users. It was agreed that these approvals would be ^{manually} ~~exported from~~ the ^{manually} ~~QC~~ computer system ^{via tape on a periodic basis} and then inserted into the AIM User Directory. SPD will develop programs to accommodate these procedures. (U/AIUO) ^{the software}

1985 Congressional Budget Submission

Our 1985 Congressional Budget was submitted on 8 December 1983. The first draft of the ADF services write-up for the CDTB has been prepared by the Controller's Office from our submission. (U/AIUO) (ODP ONLY)

Headquarters Regulations and Notices

ODP concurred on the following proposed Headquarters Regulations and Notices:

ADMINISTRATIVE - INTERNAL USE ONLY

ADMINISTRATIVE - INTERNAL USE ONLY

STAT

External Procurement Requests

STAT

The ~~B~~ODP concurred as per on the following external procurement requests for ADP equipment:

STAT

o

o

DDA/OF

Four IBM PC-XT personal computers for test and evaluation of the Peachtree payroll software and utilization by the Liaison Office to track and pay GSA work orders.

o

DDS&T/OSO

A SYSCON ARRAY PROCESSOR for use with an installed VAX 11/780 for interactive manipulation

STAT

STAT

o

DDS&T/OTS

Acquisition of Gavilan, Radio Shack TRS 80 Model 100, Telecon 3100, Grid, NEC 8201 personal computers for test and evaluation for possible overseas use.

STAT

o

DDS&T/NPIC

Acquisition of a WANG VS100 system and nine WANG ~~PC 202~~ personal computers for use by the (U/AIUO)

Finance

As of 14 December 1983, there are 61 outstanding advances with a dollar amount of \$28,880. Currently, the delinquent advances total \$3,260.

MEMORANDUM FOR: Director of Data Processing

ATTENTION: Executive Officer, ODP

FROM: [redacted]
Chief, Consulting and Assistance Group

SUBJECT: Weekly Report for Week Ending 16 December 1983

ACTIVITIES FOR THE CURRENT WEEK:

Quarterly Security Automated Name Check Activity (SANCA) processing was found to be incorrect. The problem, which is believed to be in the update cycle, has been turned over to the programmer. Further quarterly processing will be postponed until the customer moves to [redacted] Building. (U) [redacted]

Central Badging (CENBAD) Bi-weekly was completed late due to data problems. A bad record on the data base had to be identified and removed before processing could continue. (U) [redacted]

On 9 December, SAB and ISB split Aim on VM1 to improve the Aim response time on VM1. All non-ODP DDA Aim users (601) were moved to a separate Aim system running on VM1. This split was costly because it required that we give up two 3380 user packs to build the second VM1 Aim system. (U) [redacted]

The first running of the CAMS2 Data Base Management Specialist course was conducted by TRW at Chamber of Commerce during the week of 5 December. In attendance from ODP/IMD/DBMB were: [redacted]

The trouble desk handled a total of 925 phone calls for the week 5-9 Dec; 600 incoming, 325 outgoing calls and 135 Wang calls. 153 of the incoming calls reported terminal problems. (U) [redacted]

The Training and Information Branch (T&IB) set up student USERIDs and software to assist Office of Logistics (OL) personnel in the instruction of the Agency Standard Automated Property System (ASAPS).

STAT

(U) [REDACTED]

STAT

STAT

[REDACTED] completed the Television Production Workshop training course. (U) [REDACTED]

STAT

Consulting Services Branch (CSB) personnel assisted SPD in the identification and correction of a problem with VM/SP CP Release 3 involving incorrect handling of terminal function keys. (U) (B. [REDACTED])

STAT

A significant number of VM1 users have complained about overall slow performance of the system during the past week. To improve the AIM (Automated Information Management) system performance on VM1 Directorate of Administration (DA) AIM users were moved to a separate copy of AIM, in preparation for the third VM processor in early 1984. (U) (B. [REDACTED])

STAT

New procedures for coordinating the installation, testing, and user training of Xerox 2700 printers are being initiated by CSB in coordination with SPD and ED personnel. In these procedures CSB will act as the focal point for tracking the progress of these Xerox 2700 activities and for user interface. (U) [REDACTED]

STAT

The Automatic Information Management/Word Processor (AIM/WP) Reference Manual has been revised to include all user comments, and was submitted to OL/P&PD for reproduction and dissemination. (U) (A. [REDACTED])

STAT

STAT

PERSONNEL:

[REDACTED] joined the Data Conversion Branch on December 12. She is located in 510 Key Building. (U) [REDACTED]

UPCOMING EVENTS:

STAT

Planning for the installation of two more copies of the CAMS2 system on the second 3081 has been completed. The installation is under way and is anticipated to be completed in time to meet the ODP delivery to TRW 9 January 1984. (U) [REDACTED]

STAT

STAT

[REDACTED] and three Hadron contract instructors will attend the Data Training Conference from 11-15 December. (U) [REDACTED]

STAT

STAT

[REDACTED] will attend a demonstration of wide-screen projectors to be sponsored by OT&E on 16 December. These projectors can be directly interfaced to the Delta Data 7000 terminal for classroom instructional use. (U) [REDACTED]

Major Activities During the Past Week:

STAT { CAPER/OP (Case Applicant Processing Evaluation Report).
The Installation of a new minicomputer in [] Building to
support OP Project CAPER will not be completed on schedule.
STAT Renovation of the minicomputer room (3N08) is behind schedule
thereby delaying the minicomputer installation. OP has been
STAT advised of the change in schedule. [] (U)

STAT { [] attended a meeting
STAT with representatives from Price Waterhouse. They are developing a
payroll system for the Department of the ARMY using Structured
STAT Analysis techniques and are ready to begin detail design. The
STAT meeting was arranged by [] and was very informative.
[] (U)

STAT { Preliminary meeting was held with OF/CD on Thursday the 8th
to review a draft proposal for delivering the T&A process by
December 1984. Several OF/CD concerns were identified and are
being researched for further consideration in a subsequent
STAT meeting scheduled for next week. [] (U)

STAT { We anticipate having an ISSUES and ALTERNATIVES document for
the T&A process completed in draft form by the end of this week.
[] (U)

STAT { LIMS (Logistics Integrated Management System). The LIMS
development contractor, Booz, Allen & Hamilton (BAH) presented
their proposed approach to implementing a LIMS Basic Operating

UNCLASSIFIED

UNCLASSIFIED

STAT **Capability (BOC).** The presentation included a statement of requirements satisfied at BOC, an operational process flow depicting electronic transmission of requisitions, and representative menus. BAH was asked to prepare a similar briefing for the LIMS Steering Committee. [redacted] (U)

STAT **LIMS (Logistics Integrated Management System).** Booz, Allen & Hamilton delivered for Government review, preliminary drafts of the Requisition, Receiving, Conversion, and Management Information Computer Program Configuration Items (CPCIs) for the Preliminary System Design Specification (PSDS). [redacted] (U)

LIMS (Logistics Integrated Management System). The Development Branch prepared and published drafts of the Government Furnished Interface Control Documents (ICDs) for the Defense Integrated Data Systems (DIDS) and the Electronic Funds Transfer (EFT) with the Department of the Treasury. (John F.) (U)

Personnel Assignments:

STAT [redacted] (CTEC) is assisting the CAMS QA effort for 3 days.

STAT [redacted] EOD as the Logistics Systems Division secretary.
STAT Her new address and extension are 2B07 [redacted]

STAT [redacted] left the Logistics Systems Division to join
STAT the Information System Division. His new address and extension are 2E21 [redacted]

Upcoming Events:

STAT **A briefing for the LIMS Steering Committee is scheduled for 21 December in room 2C19 [redacted] at 0930.**

13 December 1983

STAT MEMORANDUM FOR: Director of Data Processing

FROM: [REDACTED]

Acting Chief, Special Systems Group/ODP

SUBJECT: Report for Week Ending 16 December 1983

MAJOR ACTIVITIES DURING THE PAST WEEK:

STAT [REDACTED] C/SSG/ODP, met with [REDACTED] C/Improved NPIC System (INS), to discuss procedures for defining and controlling the interface between INS and the CAMS2 Processing Segment (P/S). A method was devised whereby each segment will appoint a single point of contact who can commit his respective segment to comply with an agreed to specification or change to the interface. In this manner, both segments will be designing and implementing the same capabilities and will not waste resources incorporating uncoordinated changes. [REDACTED] (U)

STAT The major focus within the CAMS project is on Integration Test. Of the 129 test cases, 70 have been completed successfully. For the month of November, 20 of the scheduled 39 cases were successfully completed. The Integration Test activity is scheduled for completion on 15 January 1984. (J.

UNCLASSIFIED

STAT

[] (U)

The delivery dates for the major project documentation items have been rescheduled due to the increased personnel demands imposed by Integration Test. The draft of the User's, Administrator's, and Operator's Manuals is now due on 1 February, with the final copy to OL/P&PD for reproduction by 16 March 1984. Delivery to the customer is to be completed by 1 May. The as-built program documentation is due for delivery on 23 April. [] (U)

STAT

STAT

A draft of the Phase III Functional Requirements Document (FRD) was delivered by COMIREX for review. [] (U)

The CAMS2 (P/S) Interface Control Documents (ICDs) for AIRES, SAFS, and NPIC have been converted from VM/SCRIPT files to WANG word processor files. The ICDs were converted in preparation to begin Phase III Requirements documentation. The documentation will be prepared and maintained by the CAMS2 (P/S) Systems Integration contractor, Synectics Corporation. The VM/SCRIPT to WANG conversion effort was accomplished by ODP/Consulting Services Staff. This was a large and complex task that was completed in a most accurate and timely manner.

SUBJECT: Weekly Report for Week Ending 16 DEC 1983

3 CAMS (spelled out edf) a large mainframe computer,

STAT IBM installed the new 3081 Processor in the [REDACTED] Computer Center for the CAMS2 System on Saturday and Sunday, 10-11 December. Problems were encountered during the upgrade to a model 3084 causing the CAMS System to be out of service for several hours on Monday, 12 December. (U) [REDACTED] features of

4 42 SAFE SAFE system were made

STAT The DIA SECMAIL and SECTEXT onlines were available to the DIA users on the weekend of 10-11 December. Availability was requested for DIA due to the Middle East crisis. Normally these onlines are available only Monday through Friday. (U) [REDACTED] (this special)

STAT SPD completed software for the binary synchronous telecommunications link between the P&PD Dicomed film recorder and the [REDACTED] Center on December 9. Combined with a new TELEGRAPH device interface, this link will provide high quality color slides, VUGRAFs and other film output for general users beginning early next year. (U) [REDACTED]

4 42 AIM modified and enhanced

STAT The AIM system on VM1 was split in half to provide better response. This was accomplished without problems and done in such a way as to minimize the impact of splitting AIM to four VM1 users. Response was immediately improved and feedback from the users has all been quite positive. (U) [REDACTED]

STAT Release 3 of CP replaced release 1 of CP last week on VM1 and VM2. This was a major change to the VM Operating System, but the first week of production was quite stable and completed with

PAGE 2

STAT
STAT

no major unresolved problems. There was only one problem, which involved function keys, reported by our users, but otherwise this major software change to the operating system went basically unnoticed by our large user community in the [] Computer Center. (U) []

ce SYSTEMS AVAILABILITY SUMMARY

MONDAY 5 DECEMBER 1983 THRU SUNDAY 11 DECEMBER 1983
